A COMMUNICATION

Board of Selectmen
Pittsfield
New Hampshire

Dear Sirs:

It gives me great pleasure to notify you that I shall donate the sum of Five Hundred dollars (\$500) to the Town of Pittsfield for Band Concerts during the coming summer.

I shall appreciate it if you would have this information given to the citizens of the town at the coming town meeting.

I might add that I would like to make this gift as a memorial to my late father, Nathaniel S. Drake, who for a period of many years took an active interest in the welfare of the town.

I am much pleased with the fine progress of the Pittsfield Band and I am sure that all the citizens of Pittsfield share this view.

Very Sincerely yours,

J. FRANK DRAKE

TOWN WARRANT

To the Inhabitants of the Town of Pittsfield in the County of Merrimack in said State, qualified to vote in Town Affairs;

You are hereby notified to meet at the Town House in said Pittsfield on Tuesday, the thirteenth day of March, next at nine of the clock in the forenoon to act upon the following subjects:

1. To choose al necessary Town Officers for the year ensuing, and at Greenleaf Auditorium at seven of the clock in the evening.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

1. Town Officers' Salaries	\$6,000.00
2. Town Officers' Expenses	1,500.00
3. Election and Registration	600.00
4. Municipal Court	200.00
5. Town Hall and other Buildings	600.00
6. Forest Fire	400.00
7. Police Department	2,600.00
8. Fire Department	5,900.00
9. Blister Rust and care of Trees	1,700.00
10. Insurance	1,500.00
11. Civil Defense	50.00
12. Concord Hospital	
Without Recommendation	500.00
13. Health Department	200.00
14. Vital Statistics	100.00
15. Sewer Maintenance	1,900.00
16. Town Dump	600.00
17. Tar for Streets	4,500.00
18. Summer Maintenance	10,000.00
19. Winter Maintenance	7,900.00
20. Street Lighting	4,411.68
21. General Expense, Highway Department	3,000.00
22. Town Road Aid	656.41
23. Libraries	3,000 00

SELECTMEN'S REPORT 1955

The Number One project in 1955 was the reconstruction of Depot St. from Elm St. to Tilton Hill Road, and Carroll St. from Cram Ave. to the Barnstead Bridge. The modern pavement, curb, and sidewalks have given this part of town the New Look. The tireless efforts of Resident Engineer Lloyd Sawyer compensated for the inexperience of the willing Contractor to produce a durable and workmanlike job. The new storm sewer has ample capacity to drain the area and all that is necessary to prevent recurrent flooding of the Depot St. business area is to keep the gutters and basins clean.

When the job was advertised alternate bids were taken on both Granite and Concrete curbing. Because the total cost was so far in excess of the original estimate it was decided to build the less expensive concrete curbing and hold the rest of the job intact. Since concrete curb will not last as long as granite it was suggested that we renegotiate with the State to get as much granite curb as possible. It was finally decided that granite curb would be used in front of business places and asphalt curb at other locations at an increased cost to the town of about \$550. The bulk of which could be provided from our sidewalk appropriation.

Excavated material from this job was available for the hauling, and several hundred yards were hauled to the Town Dump to smother the most objectionable features and improve the roadway to the brow. The dump itself has been settling into the swamp for some years causing the swamp muck to rise beyond the dump perimeter. This raising of the swamp floor blocked the channel which drained the swamp. During the past summer, a new ditch was opened around the southerly border of the swamp and the water level lowered more than a foot.

In accordance with the vote taken at last Town Meeting the Town Factory on Catamount Street, occupied by Adams Brothers was deeded to them. Adams Brothers in return deeded to the Town their factory on Joy Street occupied by Pittsfield Shoe Company. More than 1,000 yards of excavated material from the Depot Street job were hauled and dumped in the area between the Joy Street factory and the Leather Company's storage yard. A long section of the old canal was filled adding to the available parking space in this area.

A 400 foot extension of the sanitary sewer on Concord Hill was accomplished with the only expense being the furnishing and laying of the pipe. This opportunity arose when the State Highway forces began an underdrain project to eliminate the

frost heaves on Concord Hill. With free digging of the trench and later backfilling it seemed like too good an opportunity to miss.

Fairview Road was reshaped and graveled from Mack's Corner to Paul Prescott's. It is hoped that this year the surface can be widened and tarred. To extend this work from Paul Prescott's by Bob Fischer's to join the present tarred surface near Clark's Brook will be a major project involving some relocation, a lot of fill and considerable money.

Again this year we were indebted to Colonel Drake for sponsoring the summer Band Concert series. We have an excellent Band and it is a great pleasure for us all to be able to hear them. To those of us some years removed from our childhood Band Concerts are a tie with the past and particularly enjoyed for that very reason.

Another contribution to the community was made again this year by Catamount Grange. Both Floral Park and the Town Hall cemeteries were clipped and raked so they presented a uniformly well kept appearance. This effort on the part of the Patrons has accomplished a much needed and much appreciated improvement.

ANNUAL REPORT OF THE LIBRARY TRUSTEES FOR 1955

The library trustees wish to report that we have been able this year to meet the current expenses, finish off the room directly behind the Memorial Room — wallboarding, painting and the laying of a new rubber mat on the floor — as well as resurfacing the walk leading to the library from the street, along with the waxing and refinishing the woodwork of the Memorial Room.

We have made every effort this year to purchase books to be used in all departments of our schools.

Our children's books are of a new and finer selection.

We wish to thank all who have given books to the library.

We are endeavoring this next year to construct a walkway leading from the front steps of the library to the back entrance of the building on the Dustin side — also to purchase a rebuilt typewriter for the use of the library staff.

In closing we wish to say that we hope the Memorial Room will be used more in the coming year by the civic and community groups.

Our book circulation for the past year has been as follows:

Adult — 9,430

Juvenile — 4,240

New books added — 424

New registrations — 304

Respectfully submitted,

FRED REED, Chairman

CLARICE CONSTANT, Secretary

SYBIL PEASE, Treasurer

REPORT OF FOREST FIRE WARDEN

BE A GOOD CITIZEN — COOPERATE

Smoking and debris burning caused more than 50 percent of the forest fires occurring in the state of New Hampshire in 1955, 235 fires out of a total of 463 originated from these two sources. Lighted smoking material and matches thrown from moving vehicles along the highway or dropped by fishermen, hunters, hikers, berry and flower pickers accounted for 26 percent; debris burning in the wrong places or at the wrong time by those who failed to heed all pleas for safety or refused to recognize the logical, sensible rules and regulations set up under legislative authority governing the use of fire in or near woodlands accounted for more than 24 percent. This is inexcusable.

Everything possible is being done officially to remedy the situation. Since 1909 there has been a statute on our law books which requires everyone to secure written permission from the forest fire warden before starting a fire in or near woodlands

or where fire can be communicated to woodlands, unless the ground is covered with snow. A never ending program of educational work is being carried on by your local warden and state officials to inform the general public both of the value and necessity of securing the required permit for such burning. Much progress has been made but there are still many who fail or refuse to cooperate. The value of our permit system was definitely proven in this district during the 1955 calendar year. Local wardens issued 3,864 permits for debris burning fires. That's a lot of permits. The records show only 2 permit fires got out of control. This proves several things — while wardens were liberal in the issuance of permits, accomodating every applicant so far as possible, they were cautious, following closely directives outlining overall policy governing the issuance of burning permits and thoroughly instructing permit users. The latter, too, fully appreciating their responsibility in using their permits, governed themselves accordingly. Result? Much burning done legally and safe.

But what of the smokers? Despite all the efforts of those officially charged with the responsibility of preventing fires, too many were careless or thoughtless in disposing of smoking material and matches. Why? It is difficult to say. Autos are now equipped with ash trays. Why not use them. The crushing out of a cigar, cigarette and the complete extinguishment of matches before being discarded is an easy chore.

If the costly habits of the careless and indifferent smoker and debris burned could be overcome, more than half of our annual forest fires would be eliminated. Will YOU do YOUR share to bring this about?

Remember

1. Get a written permit from your local warden before starting your debris burning or camp fire. The law requires it.
2. Make certain they are dead out before leaving them.
3. Become a safe smoker by extinguishing smoking material and matches before discarding them.

BE A GOOD CITIZEN — COOPERATE

Number of local fires — 3.
 Number of acres burned — $9\frac{1}{2}$
 Number of permits issued — 100

Respectfully submitted,

THOMAS J. KING
 District Fire Chief

FRED W. REED
 Forest Fire Warden

FIRE AND POLICE SIGNAL SYSTEM

REPORT FOR 1955

During 1955 the fire alarm system functioned perfectly striking 47 alarms and one no-school signal. There were 14 alarms from street boxes and 23 from the box at the Leather Factory due to telephoned fire calls. All telephoned fire calls were correctly understood by the watchmen taking them; and correctly repeated to the fire department member taking the message. All messages received from the factory watchmen should be repeated to him by the taker at the fire station to be sure it is correctly understood, as there are similar names and similar sounding locations.

Due to the rebuilding of certain streets, poles had to be moved or new ones erected. This necessitated change from time to time of the Town signal wires and fire alarm boxes in these areas. Due to the age of the old fire alarm wires and supporting fixtures it was deemed advisable by the Fire Department Officials and the Selectmen to replace all affected wires and fixtures with new material. The costs were considerable; and a special appropriation was allowed by the Budget Committee.

As no notice of these contemplated changes was given to this Department before June, no earlier appropriation was asked at Town Meeting time. Material had to be suddenly found, purchased and delivered, and the temporary shifting of wires and boxes done at various times, as street work progressed, and finally the new construction completed. The final work was not completed until December. As the Town had to depend on the services of the Public Service Company linemen and their equipment, which services were fortunately arranged for us by Mr. Herrick, the local Public Service Company manager, and the town owes him their thanks. If we had not had their services, and had had to hire a contractor, the labor costs would have been excessive due to intermittent change overs before permanent construction could be done.

For the past three years I have called attention to the gradual deteriorations of the storage batteries which power the fire alarm system when the Public Service Company power is cut off or fails. The batteries have been in use for 12 years; and are no longer reliable. The plates are shedding; and their electrical storage capacity is greatly diminished. They could not be expected to operate the alarm system for over a few hours. When new, they could operate it for 40 or more hours. They must be replaced and probably will be before Town Meeting. We can't afford a failure of the alarm system due to their failure.

During the past year, a Radio Base Station was purchased for the Fire Station. This station enables contact with the radio equipped fire trucks and the Forest Fire Warden's car, when they are going to a fire, are at one, or returning; which is a

very valuable matter, especially should there be another fire. It also permits radio communication with other fire departments, equipment, and with the Mutual Aid Center at Loudon. This set was purchased at a reduced price through the State Civil Defense Agency. Fire Department Radio Systems operate on the State Forestry System network and can be contacted by the State Civil Defense System. This station has already proved its value to the Town Fire Department. One new fire alarm box has been set on the westerly end of Smith Street to give that whole area better street box protection. The number is 52.

Recommendations

That the Fire Engineers now make a positive assignment of a reliable and properly instructed man to remain at the fire station when all apparatus and men are out on a fire call, to take any telephone fire calls that might come, to cover street box alarms, and to keep in touch with the apparatus by radio. If no one is at the station should another fire call come by telephone, the call would be lost and the fire burn. This assignment is a very necessary matter.

Also I would recommend that a yearly appropriation of at least \$500 be made to gradually replace the old, bare copper wire which is 60 years old and deteriorating and many cross arms that are rotting.

I believe work should start at Boxes 25 and 27, continue through Main St. to Box 33. From Main St. at Box 31 to Box 18 and to alarm bell in Pittsfield Shoe factory.

From Main St. through Broadway to Cram Ave. and up to Town Hall bell.

From Tilton Hill Rd. through Catamount St. up to Box 45 at Maple and Manchester St., also from Catamount St., to Adams Bros. factory for bells there.

From Main St. through Chestnut to end of old wire on Bridgt St.

From Chestnut to Elm on Green St. New wire would be covered and so more protected from high voltage current, should the power wires above them fall and come in contact, which could cause burn outs in various parts of the Fire Alarm System.

Police Signal System

This system has been generally efficient. Some trouble has been caused by the new street work, one to pole relocation, some by electrical failure of certain units; one by an unknown person who shot out a blue signal light.

The system should be tested each night when Police Officers go on duty and any failure immediately reported.

Respectfully submitted,

WILLIAM B. ELY

Supt., Fire and Police Signal Systems

REPORT OF TOWN FORESTRY COMMITTEE

The Town of Pittsfield owns six separate tracts of forest land containing in all approximately 145 acres, these are, to wit: the Dr. F. H. Sargent tract, the Dustin - Barker tract, The Pest House tract, the F. P. Green tract, the Lane Hartwell tract, and the Paige tract. On the first four mentioned tracts there have been set 45,200 pine transplants, there is at this time a worthwhile stand of fast growing pine on the first three mentioned tracts. On the Green tract the pines are beginning to look better, there is some Hemlock. These tracts have been looked over by your Forestry Committee in 1955.

That a vast improvement is apparent where the trees have been pruned; and further that Blister Rust is taking a heavy toll of our pines on the Dustin - Barker tract, and on the Pest House tract, (please do not say this is not so until you go look.)

The Lane Hartwell tract of fifty acres is well covered with a good growth of Pine, Spruce, Hemlock and Hard Wood of good size.

The Paige tract of 23 acres has a lot of growing Pine on it.

Recommendations

That Moth Extermination be continued.

The trees on the most of these tracts should be pruned for reason: First, to promote faster growth; Second, to improve the quality of lumber to be cut in the future years; Third, if the lower branches were removed, it would stop a lot of inoculation by the spore from the current and gooseberry bluish that cause Blister Rust. (We ask you, this being the fact, is it not worth while to prune our pines.)

The Lane Hartwell tract, the bounds should be established and tract looked over and a price placed on same.

Respectfully submitted,

WILLIAM S. FREESE

RICHARD C. FOSS

FRANK T. GARLAND

REPORT OF TOWN TREE WARDEN

The sum of one thousand, five hundred dollars was allocated at the 1955 Town Meeting to protect and improve Pittsfield shade trees. The care of these trees was entrusted to your tree warden. While pursuing this work, counsel has been taken with the State Forester and the board of Selectmen and suggestions that were in the best interest of the Town, have been acted upon as far as help could be employed.

All of the trees within the Village limit, including those within the confines of the parks, school yards and cemeteries have been sprayed once and elms as far as they could be reached have had two extra sprays, one in early spring and one in the early fall.

This includes all private trees that could be reached when asked to have them sprayed.

There have been three trees removed on account of age, five on account of Dutch Elm disease, three by the State Highway and three by the Public Service Company of New Hampshire. There have been a lot of limbs removed. There have been seven trees set out, there have been three trees repaired, young trees fertilized, painted and cared for.

Fourteen trees lost in Pittsfield in one year is a lot of trees.

Recommendations

Every one knows it is impossible to destroy all of the insects in any one year, although there were a lot destroyed as is evident by a comparison of Pittsfield trees with trees in towns not sprayed. The DUTCH ELM DISEASE HAS BEEN FOUND ON OUR TREES, there were three elms removed in 1953, two in 1954, and five in 1955, infected with DUTCH ELM. The undersigned believes that if we want to save our trees they should be sprayed in 1956, the elms in early spring and again in early fall, and all of them about the first of June. There should be some young trees set where trees have been removed, and a lot of dead wood removed and a few trees braced if we want to save our trees.

All of the elm trees upon private property in the village limits should be sprayed if we want to save our trees.

Our trees are honorable Citizens; let us respect them as such.

When we plant and care for trees let us trust that we are planting ourselves to be remembered for the benefit of our town.

Respectfully submitted,

FRANK T. GARLAND

Town Tree Warden

DISTRICT NURSING ASSOCIATION REPORT

From January 1, 1955 to January 1, 1956

Number of prenatal and maternity visits		65
Number of baby visits		25
Number of nursing visits		2,124
Number of pre-school visits		131

(b) Report of the Superintendent

INSTRUCTION

I suppose your school board and superintendent should take consolation in the fact that all other communities face the same acute problems in selecting a staff. However, we realize so thoroughly that the success of our school system is based on the quality of its teaching, that this problem takes precedence over all others. We find that our present salary schedule is inadequate. We are pleased that we can maintain a fine core of teachers who are local folks and who share in every respect the problems of a relatively poor community with a large pupil population. A stable faculty is necessary for best results. Every year we lose some of our best teachers to other communities and states. It is very hard to secure the best of the new teachers with minimum salaries and not create injustices to the older staff members who are very faithful and expert in their teaching. The new budget cuts several appropriations to the bone so that we can be in a better position to employ and hold teachers.

School began in September 1955 with a staff of twenty-five full time teachers and a part-time music teacher. There were nine changes in personnel.

Miss Violet Kimball was added as the new teacher for the third division of grade 1. She is fully qualified and had one previous year of experience.

Mr. Charles Dustin resigned to accept a position with much higher salary in New York State. Miss Marjorie Campbell, a graduate of Keene Teachers' College with several years' experience, replaces him to teach the language arts courses in grades 7 and 8.

Mrs. Clarice Constant, who has taught before in our schools and served for several years as a substitute, was persuaded to accept a full-time teaching position in one of the two grade three divisions.

Mrs. Juila Merryfield resigned late in the summer to accept a position in Maine, where her husband is also teaching. Mrs. Elizabeth Levy was employed for one of the first grade divisions. She formerly taught in Virginia. Following her resignation in December, Mrs. Ruth Bailey was employed. Mrs. Bailey is a graduate of the University of Maine and has taught previously in Westbrook, Maine.

Mr. Edward Levy teaches high school English, French and civics. He is a graduate of the University of New Hampshire. In addition to his qualifications for the academic work, he has much training and ability in music.

Mr. Philip Allin was on our staff for one year, and did much to improve standards in the commercial department. He was

drafted to military service in June. Miss Laura MacNeill is our new commerce teacher. She is a graduate of Plymouth Teachers' College and is thoroughly trained in the commercial field.

Mr. Carl Rodenhiser replaces Mr. Pierpont as our physical education director. Mr. Pierpont resigned in June to move to Massachusetts. Mr. Rodenhiser is a graduate of Springfield College and Utah State University. He has had additional related training in the military services.

Miss Gloria Dorman, graduate of Plymouth Teachers' College, replaced Mr. Henry Simonds as high school mathematics teacher. Mr. Simonds resigned in June to return to the air corps. We have recently employed Mr. Alvin Blake of Laconia to complete the year. Mr. Blake is a graduate of Keene Teachers' College. He has had two years experience in public school teaching and several years of industrial teaching experience with Pratt & Whitney.

Mr. Paul Woods of Manchester has handled our instrumental and vocal training program through the first semester. We are now seeking a new part-time music instructor so that the band and glee club organizations can continue.

Last spring, after the school district meeting, we learned that we were to have an unusually large first grade in September, possibly as many as 76. A decision was made to combine a part of grade 7 with some of grade 6 and assign this group to one teacher. Admittedly, such a combination is not the best arrangement educationally. We felt that three first grade divisions were a necessity. There were no funds for either an extra room or an additional teacher. The arrangement has worked out reasonably well.

BUILDING PROBLEMS

I always dislike to compromise between what is educationally best and what is financially expedient. When funds are limited however, there sometimes is little choice.

To provide for the additional elementary classroom, we have converted the second floor storage room at the Grammar School to a useful cafeteria. We obtained advice from a local carpenter about safety factors. Steel columns filled with cement were installed from the basement floor, to give additional support to this second story. Sections of the floor were replaced and the room was painted. It now provides a nice lunch room for the children of both schools. The room formerly used as a cafeteria provides the additional classroom. The budget committee was consulted. Approval was given to use about \$1000 of the probable balance for these improvements. In effect, then, an additional room and teacher of the primary grades were provided with no increase in taxes.

The school board invited several representative citizens to study our future school needs during this school year. Members

of this group have freely volunteered their time to make this study. They are operating independently of the school officials and will probably make a report of their decisions soon.

Every effort is being made to utilize our present buildings fully, without large expenditures. It may be that we can provide for the continuing increase in enrollments in this manner, until a major portion of our indebtedness is paid off.

The list of repairs and improvements completed in your school is long. It was itemized recently in the Valley Times. Each year we continue our program of painting, repairing furniture, replacing old machines and completing minor repair in plumbing and roofing. We are pleased with the results.

A new water main has been laid from the street connection to the Grammar School. Sound-proofing in the high school cafeteria has been installed so that the room will be useful as a study hall. An asphalt paving contract at the high school completes the front driveway and the other roads have been oiled. Some old window shades have been replaced. New folding chairs have been supplied for the gym. A few new desks and chairs have been added to replace the old and provide for increased enrollments.

The new budget requests money for continued upkeep. A major improvement will be the conversion to oil in both Memorial and Grammar schools. This will provide more efficient heating and will free room for better use of present building space.

ENROLLMENTS

In a community with fluctuating business conditions, it is especially difficult to predict school enrollments accurately. We may reasonably expect our present enrollment of 540 to increase to nearly 570 in September 1956. Tuition pupils make up about one-third of the high school membership, and all the children benefit from a broader program. If our figures do not change materially, we may anticipate 620 in attendance in 1959-60 and as many as 690 in 1964-65.

FINANCES

I am happy to report a favorable financial situation. For the present school year, we expected State Aid of \$13,000. The General Court appropriated more equalization funds so that we actually received \$18,932.17. There was a net balance of about \$1000 after funds were withheld to improve the Grammar School. The appropriation voted in March 1955 required taxes of \$103,627.23. Because of increased income, the amount needed from taxes was reduced several thousand dollars. Of course, no more money was available for actual spending.

An increase in tuition receipts this year makes it possible to

cover the emergency appropriation for the new water main. In fact, it appears now that we may close the books in June 1956 with another \$1000 balance.

The new budget requires a moderate increase. In my opinion, there is no room for further cutting without curtailing our present program. We must provide for approximately 30 more pupils in addition to the normal increases in cost.

I am most grateful for your support of our school system. I would remind you that we cannot afford to be indifferent to the quality of our educational opportunities. Business is becoming aware of its need for trained employees. There can be no doubt in our minds now about the importance of highest quality American citizenship. Your schools play an increasingly important part.

JOHN WILMAN DAY

PART IV. AUXILIARY ACTIVITIES AND SPECIAL REPORTS

(a) Report of the Principal

During the school year 1955-56, the high school staff has conducted a workshop with Dr. Robert Doxtator of the University of New Hampshire serving as consultant. The staff has divided into small groups to work on problems of their own choosing to attempt to find answers and solutions. Much of this work has already resulted in improved teaching and in methods that have benefitted the school and the students. The teachers are participating in this workshop without pay and without credit.

Standardized tests, administered by the University of New Hampshire, show that our students are equal in native scholastic ability, compared with students elsewhere in the state. These same tests show that Pittsfield High School students average a little higher in reading ability than other high school students in New Hampshire. Nevertheless, we have intensified our program of developmental reading. All teachers in all subject matter areas have been given reading instruction and are working especially on those phases that pertain to their subject matter. In grades seven through twelve we have given three standardized tests during the year. These tests show that, on an average, our students are developing those reading skills that are so essential to success, not only in school work but in life and work after school.

Our guidance work continues to be of importance. Mrs. Jacqueline Hamilton, who has had special training, is continuing with this work in grades seven through twelve. She is now forming plans for another full-scale career day. This activity is conducted to help students wisely choose a life career.

The school is continuing its program of canteen dances on the Friday nights on which there are no basketball games. These affairs have been well attended and are more successful than ever before. It was with regret that the school was forced to limit attendance at these affairs to members of the student body.

An effort has been made to raise the caliber of work being done by college preparatory students. A special form of reporting progress of these students to their parents has been adopted and is now being carried out.

A number of committees, composed of townspeople and teachers, have been formed to study various phases of the school's program. One of these committees is studying the Industrial Arts Curriculum. The members of this committee are Mr. Robert Barnett, Mr. Frank Hillsgrove, Mr. James McGrath, Mr. Adelard Pelissier, Mr. Mark Rines and Mr. Paul Prescott. Other schools'

programs have been visited, and at this time it is expected that certain recommendations will be made. The committee and the school are seeking to find ways of better training those boys who will work in trade industry.

Another committee has been studying the Homemaking Department and the whole field of family life education. The members of this committee consist of Mrs. Fred Avery, Mrs. Thurston Carpenter, Mrs. Romeo Drolet, Mr. and Mrs. Alfred Jenisch, Mrs. Jacqueline Hamiton and Mr. Paul Prescott. With many complex problems confronting the family today, there is the feeling on the part of some that all young people need a more adequate preparation for the problems that they will so soon face. The knowledge that today one out of three persons is married before the age of 18 causes us to re-evaluate our whole program.

Another committee is in the process of being formed to consider the school's program of education in the areas of conservation, health, safety and recreation.

The percentage of participation indicates the success of the lunch program. Between sixty-five and seventy percent of our students participated during this year; this is, of course, the greatest ever. We are very fortunate to have Mrs. Charles Green in charge of the entire program. During the year, Mrs. Green will have purchased the food, prepared and served about thirty-five thousand meals.

The somewhat lower turnover of teachers this past year has been reflected in a more stable school. We were particularly fortunate in having to replace only one of our six elementary teachers in this building.

Pittsfield High School was one of two schools in the state that sent a delegate to the National Student Council Convention at Ardmore, Pennsylvania, June 1955. Linda Bartlett was the student who so very ably represented us. Plans are completed for sending Robert Curtis to the 1956 convention which will be held at Toledo, Ohio. Our student council is becoming more active in those activities that are rightfully classified as student government. Our student council has invited all student councils of central New Hampshire to come to Pittsfield for their annual spring workshop.

Our driver education classes, taught by Mr. Rines, are continuing to keep up with the demand. With very few exceptions, all students complete this course on or about their sixteenth birthday. All those students who have satisfactorily completed the course have passed their examinations for their operator's license. The splendid cooperation given this program by the Motor Vehicle Department of the state is greatly appreciated.

The school continues to have many problems. We list a few:

1. Lack of interest on the part of some students in utilizing the opportunities that are theirs.

2. The lack of ambition on the part of some students in terms of post-secondary plans and work. It is most unfortunate that some of our young people with great potential abilities are content to follow the line of least resistance.

3. Studies show that, our entire country and at all age levels, there is an increasing refusal to develop self-discipline. We, in our school, are not immune to this dangerous trend.

4. The welfare of our boys and girls is worthy of more interest and concern on the part of parents. During the year, a public exhibit of work of 117 students enrolled in our homemaking and shop class was attended by only three parents. We have never had more than two parents in a year wishing to discuss their child's choice of studies.

At the same time, the members of the staff wish to express their appreciation of the many acts of kindness and words of encouragement extended to them by parents, townspeople and organizations. In turn, the townspeople may well be proud of a staff that so eagerly cooperates and works together for the welfare of their young people.

(b) School Health

Report of School Nurse

Number of visits to the School	788
Number of Children Given Physical Examination	520
Number of Children Examined by Doctors	59
Number of Children Excluded from School	14
Number of Treatments in School	223
Number of Children Accompanied to Oculist and Optometist	6
Number of Children Attending Immunization Clinic	72
Number of Children Attending Dental Clinic	21
Number of Home Visits	44
Time Given to School Work (half-days)	130

	No. Affected	Corrected
Underweight	6	1
Defective Vision	46	66
Defective Teeth (Temporary)	42	317
Defective Teeth (Permanent)	153	
Enlarged Tonsils	35	2
Posture	8	6
Bites Nails	71	23

CASES OF COMMUNICABLE DISEASES

Chicken Pox, 15; Measles, 1; Mumps, 11; Whooping cough, 1.

The general condition of health among the school children seems very good. During the year, we had an epidemic of chicken pox, measles and whooping cough. Twenty-one children had their dental work completed at the dental clinic by our local dentist. This work included: Temporary extractions — 35; permanent extractions — 43; porcelain fillings — 13; silver fillings — 33; x-rays — 4; cleaning — 13. This dental clinic is a great help to the children in the lower grades and we plan to have a clinic every year. We have had our annual pre-school and immunization clinic sponsored by the State Board of Health Nurse, assisted by our local doctors. Seventy-two children attended. We had our first polio vaccine clinic, sponsored by the State Board of Health nurse, assisted by our local doctors. Ninety children were given polio vaccine. We do appreciate the help given us through the state, Red Cross, Rotary, Women of Rotary, Salvation Army, and other organization. We wish to thank parents, teachers and school officials for their kind cooperation with the school health program.

DORIS H. DROLET, R. N.

School Nurse

(c) Drake Field Report for Summer 1955

The young people of Pittsfield, ages 6-14, once again have enjoyed eight weeks of supervised play at Drake Field. The average daily attendance was about 75 youngsters. On slow days a minimum of 50 different youngsters would put in an appearance, while on busy days as many as 125 might be present.

The point competition, instituted by Mr. Francis Berry during the previous summer, was carried on during the season, the Sioux versus the Mohawks. Over 300 different youngsters earned points during the season. This competitive system seemed to work better with the younger children. The older youngsters are more independent and want to choose their own games to play, rather than to join in directed activities.

Besides the young people using playground facilities, older boys and girls used equipment. Upwards of 50 adults took part in a sunset softball league.

The season was climaxed by a Field Day with tournaments, track and field events, a costume parade, pie-eating contest and ice cream for 175 youngsters. Prizes and ribbons were awarded to winners.

Miss Sylvia Weldon is to be commended for the extremely capable way in which she handled the program for the younger children. Miss Weldon displayed initiative, patience, excellent planning and an untiring zeal for her work.

The only adverse note to be reported is the general tendency for Pittsfield youngsters to have small regard for public property.

Respectfully submitted

CHARLES R. DUSTIN

PART V. SCHOOL CALENDAR FOR 1956-57

(Subject to Change)

PITTSFIELD — BARNSTEAD

1956		
Sept.	4	General Teachers' Meeting
	5	School Opens
Oct.	18-19	Teachers' Convention
Nov.	12	Veterans' Day
Nov.	21	Schools close at 1 p.m. for Thanksgiving recess
Nov.	26	Schools re-open
Dec.	20	Schools close at 3:30 for Christmas vacation
1957		
Jan.	2	Schools reopen
Feb.	15	Schools close at 3:30 p.m. for one week vacation
Feb.	25	Schools reopen
Apr.	12	Schools close at 3:30 p.m.
Apr.	22	Schools reopen
May	30	Memorial Day — No school
June	14	Schools close for Summer Vacation

Total — 182 Days

This calendar is subject to changes authorized by your school board, State of New Hampshire education authorities, or when school is called off because of dangerous storms and emergencies. The minimum legal requirement is 180 days. Teachers' attendance at the State Teachers' Convention, Institutes and approved workshops will count as school days. If more than two days are lost time will be made up on Saturdays preceding vacations or by continuing beyond June 14.

DISTRICT MEETING

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of **PITTS FIELD**, New Hampshire, qualified to vote in district affairs:

You are hereby notified to meet at the Greenleaf Auditorium in said district on the 8th day of March, 1956 at eight o'clock in the evening to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors, and Committees in relation to any subject embraced in this warrant.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund and state building aid, together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
9. To see if the district will vote to authorize the school board to borrow a sum of money, not to exceed \$2,000.00 for the installation of oil burners at the Memorial School and the Grammar School.
10. To transact any other business that may legally come before said meeting.

Given under our hands at said Pittsfield, this 14th day of February, 1956.
